2019

I would like to congratulate Scient Global Conferences for organizing the “Euro Conference on Aging, Gerontology and Associated Diseases” to be held October 14-16, 2019 in Rome, Italy. The theme of this conference is “Evolving toward an Era of Agelessness--Promoting Healthy Ageing.”

As a conference chair of Euro Aging- 2019, I have the great privilege of welcoming and greeting the most committed and imaginative people in the field of Aging and Gerontology research and meeting renowned speakers and scientists from around the globe. I also intend to enjoy the unique artistic heritage and wonderful landscape of Italy.

This conference goes to the heart of all matters in the related fields of aging and gerontology research. I am sure that the conference will be of professional and personal benefit to all of us.

I hope to meet you personally in Rome.

Sincerely,

Garth L. Nicolson, PhD, MD (H)
Professor Emeritus of Pathology & Laboratory Medicine
Founder, President and Chief Scientific Officer
The Institute for Molecular Medicine
